

EXPERIENCE

Data Analyst — Sounds True, Denver, CO

May 2023 – January 2024

- Served as primary analytics resource; supported CFO/CTO on customer, campaign, and revenue performance
- Built executive dashboards Sisense for real-time monitoring of ROI, engagement, and revenue trends
- Restructured legacy SQL databases into standardized, queryable datasets, improving reporting reliability
- Partnered with marketing and operations teams to define KPIs, evaluate initiatives, and support data-informed decision-making

Professional Footballer — Club Tijuana, Police FC, Bangladesh National Team, Mexico & Bangladesh

January 2022 – January 2023

- Competed at first-division level with Club Tijuana (Liga MX), Police FC (BPL), and Bangladesh National Team
- Demonstrated adaptability across tactical systems, coaching styles, team environments, and cultures
- Developed applied understanding of performance evaluation, metrics, and competitive decision-making
- Maintained professional training, recovery, and match-readiness standards within a full-time competitive environment

Research Analyst — ZS Wireless LLC, Princeton, NJ

May 2020 – December 2021

- Conducted market research and competitive analysis on emerging wireless and satellite communication technologies
- Performed quantitative analysis on wireless and satellite communications markets, technology adoption, and competitive dynamics
- Produced client-facing reports and presentations translating technical findings into strategic recommendations
- Structured ambiguous technical and market questions into well-defined analytical problems

Financial Analyst — Bloomberg LP, Princeton, NJ

May 2019 – August 2019

- Analyzed operational and financial data to support planning and performance discussions
- Built scenario and forecasting models using Bloomberg Terminal
- Synthesized findings into presentations for senior analyst and strategy meetings
